- All partners to champion a continuous cycle of learning, to further develop service provision and delivery to support the child and their family
- Duty to co-operate on ALL partners, including all schools, colleges and other educational providers.

## **Arrangements for Commissioning Child Safeguarding Practice Reviews**

**Appendix B** provides details of the Luton process for receiving serious incident notifications and considering and commissioning Child Safeguarding Practice Reviews.

### **Training**

The Pan Bedfordshire LSCB training unit offers an extensive range of safeguarding training to people working with children, young people and their families. The programme focuses on the multi-agency challenges of working together.

There is an expectation that individual partners will provide relevant single agency training and induction in order to support their staff have an understanding of relevant practice and policy, and are able to manage safeguarding in an appropriate manner.

The Pan Bedfordshire LSCB training offer focuses on enabling practitioners to develop/enhance the inter-personal, communication and partnership working skills. In addition, the unit will commission events, eg learning as well as face to face on specific specialist issues such as Harmful Practices.

External expertise is commissioned where required to ensure the quality of learning/training. Expertise from across Bedfordshire services is also drawn upon where available to support the learning/training programme.

### **Evaluation and Impact of training on practice**

The unit has a robust approach to evaluating the learning/training delivered through the Pan Bedfordshire Training Unit, measuring both the quality of the training delivered and to evidence the impact on practice. Training is evaluated on:

- The quality of the learning/training (has it met participants' learning needs and course objectives?)
- The immediate impact of the learning/training (has the learning/training had an impact on the participants' knowledge and confidence levels?)
- What difference are we making? - the longer-term impact of the training (has the learning/training had an impact on participants' practice and specific outcomes for children and young people?)

The Pan Bedfordshire Training Unit provides a quarterly training report for each Safeguarding Arrangement. This report supports the Pan Bedfordshire Learning and Improvement and Training Group in developing their quarterly reports to the three Bedfordshire Safeguarding Arrangements.

## **Voice of Children and Families**

As part of the Luton Safeguarding Arrangements there is a Pan Beds Voice of the Child Sub-Group which is responsible for reviewing how local partners are hearing the voice of children and their families and how they are acting upon this. The group also carries out work directly with young people either through surveys or workshops to gain their views about the safeguarding services they receive. The group also carries out consultation activities usually in the form of focus groups with practitioners working with young people to gain their views on how systems and processes are working, and their views on the services and support opportunities that are provided to young people and their families.

In addition to the above:

- All Board reports are asked to consider the voice of the child

- 

## **Child Death Review processes (CDOP)**

As per Working Together 2018 our child death review partners are Bedford Borough Council, Central Bedfordshire Council, Luton Borough Council, Luton Clinical Commissioning group and Bedfordshire Clinical Commissioning group. The statutory requirements and responsibilities for child death review partners are set out in Working Together 2018 (page 95 -97).

Bedfordshire and Luton CDOP will produce an annual report for child death review partners on local patterns and trends in child deaths, any lessons learnt and actions taken, and the effectiveness of the wider child death review process in order to assist child death review partners to prepare their report.

Bedfordshire and Luton CDOP in liaison with Milton Keynes CDOP will consider when writing their annual reports whether there are any common themes and learning from the year to undertake joint communication campaigns across Bedfordshire, Luton and Milton Keynes. This will reflect a wider footprint and the Integrated Care System (ICS) across Bedfordshire Luton and Milton Keynes (BLMK) which includes the BLMK Commissioning Collaborative.

## **Professional Practice Guidance**

All partners will continue to follow the existing Pan Bedfordshire Inter-Agency Procedures. This will underpin expected standardised process & practice across Bedfordshire. ### **Luton Multi-Agency Safeguarding Arrangements determined by the Children and Social Work Act 2017 and Working Together to Safeguard Children 2018**

#### **Introduction**

Chapter 2, Section 16 of the Children and Social Work Act 2017 requires the safeguarding partners for a local authority area in England and Wales to make arrangements for safeguarding and promoting the welfare of children.

#### **Safeguarding partners**

A safeguarding partner in relation to a local authority area in England is defined under the Children Act 2004 (as amended by the Children and Social Work Act, 2017) as:

- a) The local authority (Luton Borough Council)
- b) A clinical commissioning group for an area any part of which falls within the local authority area (Luton Clinical Commissioning Group)
- c) The chief officer of police for an area any part of which falls within the local authority area (Bedfordshire Police)

#### **Geographical area**

The geographical footprint for the arrangements is based on local authority areas. However, the safeguarding partners for two or more local authority areas may choose to be treated as a single area in relation to the Multi-Agency Safeguarding Arrangements.

The Multi-Agency Safeguarding Arrangements for Luton Borough cover the local authority area of Luton Borough.

#### **Statutory and Legislative Duties**

The safeguarding partners for a local authority area in England (listed above) must make arrangements for:

- a) The safeguarding partners, and
- b) Any relevant agencies that they consider appropriate

To work together for the purpose of safeguarding and promoting the welfare of children, and identifying and responding to the needs of children in the area.

The arrangements must also include a process for identifying and conducting Local Child Safeguarding Practice Reviews:

- a) To identify serious child safeguarding cases which raise issues of importance in relation to the area, and
- b) For those cases to be reviewed under the supervision of the safeguarding partners, where they consider it appropriate.

The purpose of reviews of serious child safeguarding cases is to identify improvements to be made to safeguard and promote the welfare of children. Reviews should help to understand whether there are systemic issues and/or whether policy and practice need to change. Reviews should seek to prevent or reduce the risk of recurrence of similar issues.

Local safeguarding partners must make arrangements to identify and review serious child safeguarding cases which, in their view, raise issues of importance in relation to their area. Local arrangements must commission and oversee the review for those cases where they consider it appropriate that a review be undertaken.

### **Key functions**

The purpose of the local arrangements is to enable local organisations and agencies to work together in a system where:

- Children are safeguarded, and their welfare promoted
- Partner organisations and agencies collaborate, share and co-own the vision for how to achieve improved outcomes for vulnerable children.
- Organisations and agencies challenge appropriately and hold one another to account
- There is early identification and analysis of new safeguarding issues and emerging threats
- Learning is promoted and embedded in a way, that local services for children and families can become more reflective and implement changes to practice.
- Information is shared effectively to facilitate more accurate and timely decision making for children and families

To work together effectively, the arrangements should also:

- Facilitate and drive action beyond usual institutional and agency constraints and boundaries
- Ensure the effective protection of children is founded on practitioners developing lasting and trusting relationships with children and their families.

Within the arrangements, relevant agencies and safeguarding partners will need to:

- Assure themselves that relevant agencies have appropriate and robust safeguarding policies and procedures in place
- Ensure information is shared amongst relevant agencies and the safeguarding partners
- Communicate on a regular basis about the work that they will do together
- Have in place procedures for escalation and resolving disputes.

The scrutiny arrangements will also be involved in identifying and reviewing serious child safeguarding cases.

Safeguarding partners will need to ensure that the independent scrutiny arrangements are objective, acts a critical friend, and promotes reflection and drives continuous improvement.

Within Luton, it has been agreed that independent scrutiny will be carried out and overseen by an Independent Chair who is responsible for considering how effectively are safeguarding arrangements working for children, families and practitioners and how well are the safeguarding partners providing strong leadership.

### **Information sharing**

Multi-agency systems are strong when information is shared effectively amongst and between multi-agency partners to improve outcomes for children and families. Safeguarding partners (and therefore their multi-agency arrangements) may require any person or organisation/agency to provide them, any relevant agency for the area, a reviewer or another person or organisation/agency with specified information. This must be information which enables and assists the safeguarding partners and their arrangements to perform their functions to safeguard and promote the welfare of children in their area, including information related to local and national child safeguarding practice reviews.

As public authorities the safeguarding partners should be aware of their own responsibilities under relevant information law and have regard to guidance provided by the Information commissioner's Office when issuing and responding to requests for information.

### **Governance and Accountability**

The lead representatives for the local safeguarding partners have equal and joint responsibility for putting in place the local Multi-Agency Safeguarding Arrangements, within Luton these are:

In situations where a clear and single point of leadership is required, the three safeguarding partners will decide who will take the lead.

If the lead representatives chose to delegate their functions they remain accountable for any actions or decisions taken on behalf of their agency. It is the responsibility of the lead representative to identify and nominate a senior officer in their agency to have responsibility and authority for ensuring full participation in the local arrangements.

The representative or their chosen delegated officer should be able to:
